Sir:

PQ Leader Pauline Marois brazenly states, "Many of them believe that they are settling in a bilingual state. It is not true. Quebec is a Francophone state that respects the rights of its Anglophone minority",

AffiliationQuebec takes exception to the proffered lie of adequate respect for Quebec minorities, and further questions the status of our "entrenched" rights under the BNA Act?

Quebec is also an "English" place, or it "was" until Anglo lambs, the Federal Liberals and Conservatives, and the Supreme Court sold us all out as the price for rapprochement with Quebec separatists and nationalists.

Quel prix!

We have heard Marois' message. Now let her and all Quebec nationalists hear AffiliationQuebec's message: The age of unanswered Quebec revisionism is over!

AffiliationQuebec will stand firm for minority and Anglo rights in Quebec.

Take heed across the land. We respect Quebecois rights; now it's time for them to respect ours.
