In Canada, education is a provincial responsibility, and the educating of children attending English linguistic schools in Quebec is still the responsibility of the Quebec government.

Students in French schools have the required textbooks; students in English schools do not!

There is absolutely no excuse for this intolerable situation!

Clearly, the Government of Quebec has failed to perform adequately in this file. And English speaking members of the National Assembly have, as usual, failed to speak out and represent their constituents. Please note that these are all members of the Charest Liberal Government.

That there is a problem in English education in Quebec, is an understatement!

Is this just another example of covert linguistic cleansing?
